## TRANSITIONAL SUPPORTIVE HOUSING APPLICATION

### Program Requirement

The Salvation Army Grace Mansion exists to provide safe, stable, affordable housing for individuals who are at risk of homelessness and are looking to work through barriers and issues that may have contributed to their lack of housing. It is Grace Mansion's goal to help residents build supports in the community and help residents gain skills that will break the cycle of homelessness.

Grace Mansion Transitional Housing supports men and women who are working through a variety of issues and obstacles. From those working through substance abuse, or mental health issues, to those who need help finding permanent housing because of the lack of available affordable housing in Vancouver. Grace Mansion works with individuals to create personal development plans that help them reach their goals and build on their successes.

Grace Mansion is a drug and alcohol-free (including marijuana) environment but we understand that not everyone wants to live in a place with those restrictions. If you don't want to live in a drug and alcohol-free environment but are still in need of housing, please let us know and we will do our very best to connect you with low-barrier housing supports.

### Length of Stay

Residents can stay at Grace Mansion for up to 24 months. However, our goal is to try and help residents find permanent housing within 12-14 months of moving in.
